ABOUT MASTER MACHINING

Master Machining started back in 1986 in the family garage originally as a prototype and production tooling business for cold headers and hot forging machines. We have been a family-owned and operated company ever since. From our humble beginnings, we have grown into a 7,500 square foot facility. This expansion has enabled us to increase our machining capabilities and forge into new territories that the family garage didn't—we provide our skill sets in numerous industries that now include aerospace, automotive, and medical. Our shop takes a leading edge on competitors in the area. We are equipped with modern CNC lathes and mills powered by Mastercam CAD/CAM software that tailors our programming to your parts and individual needs. Quality management is high on our list, which means that we pride ourselves on our ISO 9001:2015 certification. We promise to meet the needs of our customers by providing on-time and defect-free products. Through continuous improvements, we are eager to work with our customers on achieving products that exceed expectations.

THE MASTER MACHINING PROMISE

To only work with the best materials available and provide our customers with defect-free parts delivered on-time, resulting in finished work that is to complete satisfaction

Generations of manufacturers

Master Machining Inc. is family-owned and operated, with well over 30 years of experience in tool-and-die manufacturing. Specializing in production tooling for cold headers.

CNC turning, grinding, honing, and more

Our services are varied, with each and every one coming with the same promise of quality, dedication, and durability

Taking your next project from concept . . . to reality

We manufacture to your exact specifications, ensuring your satisfaction and a product well-made

EQUIPMENT LIST

CNC MILLING

1 HAAS VF 1

1 HAAS VF 2

1 HAAS VF 4

CNC TURNING

1 HAAS SL-40

SURFACE GRINDING

1 BROWN AND SHARP HYDRAULIC AUTOMATIC

HONING

1 SUNNEN MBB1660 HONE

CAD/CAM

1 MASTER CAM

SHOP EQUIPMENT

1 ROLL IN SAW

1 WELL DROP SAW

1 BENCH GRINDERS

1 BRIDGEPORT MILL

1 DOALL LATHE
